CATALOGUE

—OF THE—

OFFICERS AND STUDENTS,

—OF—

HIGHLAND UNIVERSITY,

KANSAS.

FOR THE COLLEGIATE YEAR, 1881-82.

ATCHISON, KAS:
HASKELL & SON, PRINTERS.
1882.

CORPORATE NAME:

The Board of Trustees of Highland University.

BOARD OF TRUSTEES,

One-third of whom are appointed yearly by the Synod of Kansas, in connection with the Grand Assembly of the Presbyterian Church in the United States of America, and whose term of office expires as follows:

1882.

J. P. JOHNSON, Esq.,	- - - - -	Highland, Kansas.
REV. ROBERT CRUIKSHANK, D. D.	- - - - -	Highland, Kansas.
D. M. MCINTOSH, Esq.,	- - - - -	Troy, Kansas.
REV. W. N. PAGE, D. D.,	- - - - -	Leavenworth, Kan.
ELIJAH M. HUBBARD, Esq.,	- - - - -	Highland, Kansas.
REV. J. T. BAIRD,	- - - - -	Plattsmouth, Neb.
REV. S. M. OSMOND, D. D.,	- - - - -	Lawrence, Kansas.
REV. M. F. HOWIE,	- - - - -	Atchison, Kansas.
REV. W. M. MCHARG,	- - - - -	Blue Rapids, Kan.

1883.

JUDGE J. C. CLARK,	- - - - -	Topeka, Kansas.
W. E. LEWIS, M. D.,	- - - - -	White Cloud, Kan.
H. WALKER, Esq.,	- - - - -	Beloit, Kansas.
JOHN L. FREELAND, Esq.,	- - - - -	Blue Rapids, Kan.
REV. JOHN A. PINKERTON,	- - - - -	Beloit, Kansas.
REV. JAS. A. GRIFFEES,	- - - - -	Irving, Kansas.
REV. D. R. TODD,	- - - - -	Netawaka, Kansas.
HON. B. COWAN,	- - - - -	Oregon, Missouri.

1884.

REV. S. M. IRVIN,	- - - - -	Highland, Kansas.
WM. H. BAYLESS, Esq.,	- - - - -	Highland, Kansas.
J. A. LEONARD, Esq.,	- - - - -	Highland, Kansas.
REV. DANIEL KLOSS,	- - - - -	Highland, Kansas.
REV. S. F. FARMER,	- - - - -	Highland, Kansas.
REV. H. G. STRANGE,	- - - - -	Hiawatha, Kansas.
REV. GEORGE HAGEMAN,	- - - - -	Washington, Kansas.
JOHN L. MOTTER,	- - - - -	Wathena, Kansas.
REV. R. M. OVERSTREET,	- - - - -	Emporia, Kansas.

OFFICERS OF THE BOARD.

(CONSISTING OF THE EXECUTIVE COMMITTEE.)

J. P. JOHNSON, Esq., President.	J. A. LEONARD, Vice President.
REV. S. M. IRVIN and	J. A. LEONARD, Secretaries.
REV. DANIEL KLOSS, Treasurer.	W. H. BAYLESS, Auditor.

FACULTY.

1881-82.

REV. ROBERT CRUIKSHANK, D. D.,

President and Professor of Mental and Moral Sciences, and Belles-Lettres.

At present the President attends to the duties of the following Chair:
Professor of Latin, Greek, and Ancient Literature.

HON. H. D. McCARTY, LL. D.,

Professor of Mathematics and Natural Sciences.

REV. DANIEL KLOSS, A. M.,

Instructor in German.

REV. SAMUEL F. FARMER, A. B.,

Instructor in Academic Department.

C. R. SCOTT,

Tutor.

MISS JENNIE A. ROBINSON,

Instructor in Juvenile Department.

FACULTY.

1882-83.

HON. H. D. McCARTY, LL. D.,

Acting President, and Professor of Mathematics and Natural Sciences.

REV. DUNCAN BROWN, A. M.,

Professor of Ancient Languages and Literature.

REV. DANIEL KLOSS, A. M.,

Professor of German and French.

REV. SAMUEL FARMER, A. B.,

Instructor in Academic Department.

Teacher of Preparatory Department,

MRS. MATTIE L. BROWN,

Instructor in Vocal and Instrumental Music.

UNDERGRADUTES 1881-2.

COLLEGE DEPARTMENT.

* Deceased.

SUMMARY.

Senior Class, 3; Sophomore Class, 6; Freshman Class, 7
—16; Academic, 79; Preparatory 44; Total, 139.

COURSE OF STUDIES.

CLASSICAL AND SCIENTIFIC.

FRESHMAN CLASS.

FIRST TERM.

LATIN—Horace's Odes, Latin Grammar reviewed, especially Prosody.

GREEK—Xenophon's Anabasis (completed), and Greek Testament once a week.

MATHEMATICS—Olney's University Algebra, commencing Part III (Infinite-simal Analysis).

SECOND TERM.

LATIN—Livy's History, Latin Composition.

GREEK—Herodotus' Greek, Greek Testament once a week.

MATHEMATICS—Olney's Geometry from chap. ii (solid), completed.

THIRD TERM.

LATIN—Livy's History and Latin Composition.

GREEK—Lysia's Orations, Greek Composition, Greek Testament once a week.

MATHEMATICS—Olney's University Algebra (completed).

ANATOMY AND PHYSIOLOGY.

SOPHOMORE CLASS.

FIRST TERM.

LATIN—Horace's Satires and Epistles, Latin Composition.

GREEK—Lysia's Orations, Greek Composition.

MATHEMATICS—Plane Trigonometry, Mensuration and Navigation.

RHETORIC.

SECOND TERM.

LATIN—Cicero de Senectute, Ars Poetica.

GREEK—Demosthenes, Orations, Olynthiacs or Philippics, Greek Composition.

MATHEMATICS—Spherical Trigonometry.

HISTORY—Smith's History of Greece.

THIRD TERM

LATIN—Tacitus' Germania and Agricola.

GREEK—Homer's Iliad, Greek Composition.

MATHEMATICS—Surveying

GEOLOGY—Dana's.

HISTORY—Liddell's History of Rome.

JUNIOR CLASS.

FIRST TERM.

LATIN—Tacitus' History.

MATHEMATICS—Olney's General Geometry and Calculus (commenced).

NATURAL PHILOSOPHY.

EVIDENCES OF CHRISTIANITY.

SECOND TERM.

GREEK—Thucydides (commenced).

MATHEMATICS—Olney's Differential Calculus.

HISTORY—Outlines of in connection with Lectures.

MENTAL PHILOSOPHY (commenced).

THIRD TERM.

GREEK—Thucydides (continued).

LATIN—Terence.

MATHEMATICS—Olney's Differential Calculus.

MENTAL PHILOSOPHY—(completed).

BOTANY—Wood's.

SENIOR CLASS.

FIRST TERM.

LOGIC—President McCosh's Laws of Discursive Thought.

CIVIL GOVERNMENT, and Analysis of the Constitution of the United States.

MATHEMATICS—Olney's Integral Calculus.

MORAL PHILOSOPHY.

GREEK—Hellenistic Greek or

HEBREW—Green's Grammar.

SECOND AND THIRD TERMS.

ENGLISH LITERATURE.

CRITICISM—Kane's and (Lectures).

CHEMISTRY.

ASTRONOMY.

BUTLER'S ANALOGY.

GREEK—Hellenistic Greek or

HEBREW—Green's Grammar and Chrestomathy.

SCIENTIFIC COURSE.

The studies of the Scientific Course are the same as those of the Classical, except that German or French may be substituted for Greek.

In addition to the exercises connected with the Literary Societies, there are exercises in declamation, reading essays, delivering original orations, and debate, before the whole College, once a week in the Chapel.

These performances are subject to the criticism of the Professors.

STUDIES OF THE ACADEMIC DEPARTMENT.

SPELLING.

READING.

WRITING.

ARITHMETIC—Mental and Written—Metric System.

GEOGRAPHY—Guyot's Grammar School and Guyot's Physical.

HISTORY—Of the United States.

BOOK-KEEPING.

ENGLISH GRAMMAR—Parsing and Analysis.

LATIN—Grammar, Reader, four books of Cæsar, six of Cicero's Select Orations, six books of Virgil's *Æneid*.

GREEK—Grammar, Reader, two books of Xenophon's *Anabasis*, one of the Gospels.

MATHEMATICS—Olney's University Algebra to Part III (Infinitesimal Analysis), Olney's University Geometry to chapter II (Solid).

The foregoing Academic studies (or an equivalent) are required of students before entering the Freshman class of the Collegiate Department.

NORMAL DEPARTMENT.

Students, wishing to fit themselves for Teaching, will receive special instruction in the *Branches* to be taught in our public schools and in the *Manner* of teaching. Particular attention will be given to this Department by Prof. McCarty, who has had large and successful experience in Normal work.

COURSES OF STUDY.

The Academic Course, or its equivalent, will be required before a student is permitted to enter either of the other two Courses, except that Greek may be omitted by those entering the Scientific Course. It would be well, however, for every scientific student, if for no other reason than to master the Technology of the Sciences, to be familiar with at least as much Greek as our Academic Course affords.

The two full four year courses of study are open to both sexes, and are so arranged that they can be pursued by students of both in the same class rooms, and at the same stage of their progress.

Any student may enter College at any time and select such studies as he may desire from either department, but such irregular student will be subject to the same regulations and discipline as the regular student.

MUSIC.

The plan of the University contemplates thorough provision for vocal and instrumental music. At present, music is the only study for which extra charges are made.

Proper testimonials will be given to all who complete the prescribed course.

ADMISSION.

Students of good moral character will be admitted to the University upon the payment of a matriculation fee of one dollar.

Students desiring to enter any class above the Academic Course, will be examined on previous studies or their equivalent.

Certificates of dismissal in good standing will be required of students coming from other colleges.

GOVERNMENT AND SUPERVISION.

A few general regulations are given at the beginning of each term. Individual cases will be dealt with as they occur, and judged upon their merits. The grade of scholarship of each student is made a daily record in the class room, tabulated monthly, and

recorded in the public records of the institution. Any parent or guardian can ascertain by correspondence, or by personal examination of the records, what the standing of the pupil has been during the month.

Absences from college exercises not included in recitations will appear in conduct.

The Faculty meets once a week to inquire into the deportment and standing of every student on the roll, and each member of the Faculty is charged to report any misdemeanor or infraction of the laws of the College which may have come to his knowledge. From these reports and inquiries, an intimate knowledge is gained of the deportment and standing of each student, and any impropriety of conduct or neglect of study is immediately inquired into. No student will be encouraged in idleness; and whenever, in the judgment of the faculty, any student is not making sufficient progress in his studies to justify his expenditure of time and money, or is likely to fall into irreclaimable habits of vice or immorality, the President is required to inform his parent or guardian, and to request his removal.

The past year has been one of unprecedented prosperity, and gives assurance that the most sanguine expectations and hopes of the many friends of the University will be fully realized.

Our purpose is simply to build up HIGHLAND UNIVERSITY and to have her do just such work in the future as she has done in the past, with a wise and cautious adjustment of all her appointments and processes to the progress of the age. While we are proud of her past history and achievements, we shall not forget that she has now to deal with the living present. If the community will furnish us with sober, earnest young men and women who desire a good, sound, thorough education, and have the will to work for it, we propose to furnish them with all the helps that are necessary, or that any other institution can give them. This is the kind of material upon which we desire to work—we make no bid for any other.

We invite the friends of education, and all who are interested in educational matter, to call upon us and examine our appointments and inquire into our operations. We wish to deal candidly with the public. A want of candor is reprehensible in any department of life; in the sacred business of education it is a crime.

RELIGIOUS CULTURE.

It is the constant aim of the several Professors to infuse, as far as practicable, the spirit of Evangelical Christianity into their instructions in every department. In addition, the students are required to attend chapel service every morning, and are taught a Scripture lesson once a week as a regular recitation, such as are qualified, using the Greek Testament.

All students are expected to attend Sabbath School and Divine worship once each Sabbath, in some church chosen by themselves, or their parents or guardians.

LITERARY SOCIETIES.

There are four Literary Societies in connection with the University—two for the young gentleman (the Erodelphian and Cliosophic), and two for the young ladies (the Atelceta and Eucleian.)

These societies are co-ordinate, and receive alike the special encouragement of the Faculty and Trustees. They conduct their own affairs, subject to general college regulations. Their value to the student cannot be easily over-estimated. The experience of the past shows that a ready and practical use of knowledge, ease and effectiveness in public speaking, and familiarity with the rules of parliamentary proceedings, can be secured in no way so readily as by the exercises of the literary society.

At the close of the second term two evenings are devoted to the annual contests between the societies—the first evening to the contest between the young gentlemen's, and the second to the contest between the young ladies' societies. The honors are awarded by a bench of impartial judges, selected by a joint convention of students representing the four societies. At the close of the third term, on the evening before Commencement, an address will be delivered before the literary societies by some person elected by the joint convention, and approved by the Faculty.

LIBRARY.

The University is provided with a library of over 5,000 volumes. Valuable contributions have been received during the past year. Each literary society has a library of its own. Access to the College library, under certain regulations, is at all times allowed and encouraged, for which, and for the use of such text books as are in the library, a fee of 25 cents per term is required.

Donations to all these libraries are solicited from the friends of the institution.

APPARATUS.

Apparatus for use in the Chemical and Philosophical departments has been provided at a cost of about \$1,800. The Trustees are making efforts for more ample means of illustration and research in physical science. Friends of the University can make no more acceptable gift than contribution to this department.

EXAMINATIONS.

At the close of each term, public examinations will be held upon the studies of the term. At the close of each year the examinations (written and oral) will be more thorough, embracing the work of the year, and in presence of a committee on examinations.

The Senior Examination for graduation will be five weeks before Commencement.

In addition to these, the Faculty will conduct individual or class examinations whenever it seems advisable.

PROMOTION.

In addition to the regular promotion of classes upon examinations, provision is made for special promotion by a system of special examinations conducted by the Faculty.

Any student wishing to enter a higher class in any department, can do so by passing an examination of 75 per cent. on the studies intervening between his present and proposed position, with the understanding that the remaining 25 per cent. will be made up during the year.

ARRANGEMENTS FOR BOARDING.

Good boarding, including room, fuel and lights, can be obtained in private families at from \$3 to \$3 50 per week.

During the past year such arrangements have been made that students could board at the boarding house belonging to the University, at \$2 per week, the student furnishing his own room with furniture such as he desired, and furnishing his own fuel, lights, &c., but the room was free of rent to the student, and two students were to have one room, and simply pay fifty cents apiece per term, as a fee to keep the building in repair. We hope we shall be able to continue the foregoing arrangement.

Special arrangements can be made for young gentlemen wishing to board themselves or in clubs.

YOUNG LADIES' BOARDING HOUSE.

All young ladies from abroad are required to board at some boarding house approved by the Faculty. The design is to furnish suitable accommodations for young ladies away from home. Parents may be assured that comfort and conduct will be carefully attended to.

In all cases the place of boarding must be approved by the Faculty, and no change can be made without consent of the Faculty.

EXPENSES.

The necessary expenses for the College year, not including vacations, are as follows:

Tuition, \$10, \$12 per Term.....	\$ 30	\$ 36
Boarding, \$2, \$3, \$3 50 per week.....	117	134
Washing.....	9	12
Matriculation fee.....	1	1
Contingent fee, \$1 per Term, three Terms	3	3
Text Books, \$3 to \$5 per Term.....	9	15

Twenty-five dollars paid in advance will procure a Tuition Scholarship for all the branches taught in the University for one year.

That there may be no misunderstanding about the tuition bills, \$10 and \$12 per term, let it be understood that the \$10 is for those not studying the higher English, as Algebra, Natural Philosophy, Geometry, &c., or the languages; and the \$12 per term is for all not included in this class.

This estimate can still be reduced by Free Scholarships and self-boarding; by rigid economy and the use of text books from the College Library, or purchased at second hand. They can be increased by those who desire and can afford it.

We recommend economy to every student, rich or poor, and will help the latter by every means in our power. In certain worthy cases the tuition will be omitted.

Young men studying for the Gospel ministry in any Evangelical denomination, and coming with suitable credentials of their worthiness, from the proper authorities in their respective denominations, will have free tuition, but will simply pay an incidental fee of one dollar per term to aid in meeting current expenses, such as fuel, janitor's fee &c.

EXTRA CHARGES.

Graduation Fee—First Degree (including diploma), \$5 00; Second Degree, \$3 00.

Music—Tuition, \$10 to \$12 per term; use of instrument, \$2 per term.

No student will be enrolled until he pays his Matriculation Fee, nor will he be continued on the roll for the subsequent terms of the year without paying his Contingent Fee.

 All Tuition bills are to be paid or arranged for strictly in advance, *i. e.* at the beginning of each term.

DEGREES.

The degree of Bachelor of Arts (without distinction of sex) will be conferred upon all students who complete the Classical and Philosophical Course and pass the examinations in the same. Accepted equivalents do not affect the degree or diploma. (See remarks on "Course of Study," p. 10.)

The degree of Bachelor of Science will be conferred upon all students who complete the Scientific Course and pass the examinations in the same.

The degree of Master of Arts or Master of Science will be conferred upon graduates of three years' standing, who make application and pay a fee of three dollars for the same, providing they have been engaged in literary pursuits during said three years.

Certificates embracing the class, studies and standing of irregular students, or others not completing either course, will be granted upon application.

LOCATION.

Highland, for beauty of situation, is unsurpassed. In the northeast corner of the State, surrounded by the richest soil of the great Missouri Valley, it looks out upon Missouri, Iowa, and Nebraska. The village is four miles from Highland Station, on the A. & N. Railroad, and six miles from Severance, on the St. Joseph & Western Railroad. Persons coming from the East or West, via St. Joseph & Western Railroad, will stop at Severance—hacks convey from this place to Highland. Persons coming from the North or South, via Atchison & Nebraska Railroad, will stop at Highland Station. From this point hacks convey passengers over a picturesque road to Highland.

HIGHLAND UNIVERSITY,

HIGHLAND, KANSAS.

ANNOUNCEMENT FOR 1882-83.

As Highland University has now liquidated its entire debt of over seventeen thousand dollars (\$17,000), and within the past year has spent over one thousand dollars in improvements and repairs, it has a brighter future of usefulness before it than it has had for years before.

The Presbyterian Synod of Kansas, at its annual meeting in October, 1880, voted to endow one chair in Highland University at twenty-five thousand dollars, and the friends of the College are making an effort to raise an endowment of one hundred thousand dollars. When this shall have been accomplished, the purpose is to make tuition free. At present, however, the institution is depending principally upon tuition fees to meet its current expenses; but it will be noticed that the tuition fees are much lower than in many of the well-endowed colleges of the East.

While this institution is under the general management of the Presbyterians, and the influence exerted upon the students is decidedly Christian, yet it is not sectarian; several other denominations are also represented in the Board of Trustees. All, then, who prefer to have their sons and daughters educated at an institution under decidedly Christian influences, rather than under an institution merely negatively Christian, or perchance pervaded by skeptical or even Infidel tendencies, are very respectfully invited to send to Highland University, with the assurance that they will find in this institution the most thorough, mental, moral and Christian culture.

Hon. H. D. McCarty, LL. D., is acting President, and Professor of Mathematics and the Natural Sciences, and gives special attention to the Normal Department. He has had an extensive and successful experience in Normal School instruction and in teaching the Natural Sciences.

Rev. Duncan Brown, A. M., is Professor of Ancient Languages and Literature, and is appointed to represent the University

before Ecclesiastical and other bodies, under the direction of the Executive Committee.

The young men will be under the special supervision of Prof. McCarty; the young ladies under the supervision of Mr. and Mrs. Brown.

Young men studying for the ministry, having proper credentials that they are pursuing their studies under the direction of any evangelical branch of the church, will have free tuition, at the discretion of the Faculty.

The Trustees have provided a large and comfortable boarding house for young men who may wish to board on the club plan, having some person to do the cooking for a small sum; the members of the club having systematic arrangements made, from time to time, to determine what shall be furnished for the table. The board for those who are members of the club will probably not cost more than about one dollar and quarter per week, and what is paid for cooking.

A very desirable building for a young ladies' boarding house, which ten years ago cost four thousand dollars, can be procured for fifteen hundred dollars; and if funds can be raised for the purpose during the year, it is the intention to purchase said building and furnish it, so that worthy young ladies, regardless of pecuniary circumstances, can avail themselves of the benefits of the extensive and thorough course which Highland University furnishes; but for the present year the Executive Committee will endeavor to procure suitable board in private families at as low rates as possible.

Whenever there is known to be a pecuniary necessity for it, the children of missionaries are received free of tuition.

The regular tuition and incidental fees are \$13 per term of thirteen weeks, which is only \$39 for the school year. Tuition paid invariably at the beginning of each term.

THE CHRISTIAN COLLEGE A NECESSITY.

Our free School System is one of the most brilliant jewels in the crown of our American civilization, but it would have shown with a purer lustre if it had not removed the Bible from its former prominent position in its curriculum of studies. The Christian college is a necessity, to counteract, by its purifying and elevating influence on individual character, the destructive tendencies of institutions where a rude impiety, under the deceptive name of non-interference, or fair play, has laid its vandal hands upon the Inspired Word, the bulwark of our individual safety and our national existence, and thrust it into an obscure corner of distrust and dishonor. If Christian men and women do their duty in sustaining Christian schools and colleges, there will doubtless be a salutary

influence exerted upon our entire system of popular education, which will eventually purify it from its present skeptical, infidel, and even atheistic tendencies.

"In union there is strength;" and where, we would most respectfully and considerately ask, can a better site for a college be found than that of Highland University, to accommodate Kansas, Northern Missouri, and Southern Nebraska. A glance at the map will show how, by one railroad, this site utilizes all the railroads running into Atchison, thus accommodating Kansas; by another railroad it utilizes all the railroads running into St. Joseph, thus accommodating Northern Missouri; and by a railroad running from Council Bluffs, and another from Lincoln, on the one side, and by one running from Hastings, on the other side, all approaching each other in the form of a wedge, with Highland at the thin edge, this site is convenient for Southern Nebraska. For the greatest efficiency Highland University needs the united support of the territory outlined.

CALENDAR.

1882.

- September 6—Fall term opens.
- November 29—Fall term closes.
- December 5—Winter term opens.
- December 22—Christmas recess.

1883.

- January 3—Winter term resumed.
- March 7—Contest between the Atelceta and Eucleian Societies.
- March 8—Contest between the Erodelphian and Cliosophic Societies.
- March 9—Second term closes.
- March 13—Third term opens.
- May 3-4—Senior examination.
- June 3—Baccalaureate Sermon.
- June 5—Addresses and Responses of Seniors and representatives of Literary Societies.
- June 6—Oration to Literary Societies.
- June 6—Annual meeting of Board of Trustees.
- June 7—Commencement.

For further particulars, address the acting President, or any member of the Faculty.

HISTORICAL NOTE.

Highland University is an outgrowth of the Iowa and Sac Mission, which was commenced by Rev. S. M. Irvin in 1837, under the direction of the Presbyterian Board of Foreign Missions. In 1856 a Classical Academy was begun in Highland. In 1858 a charter was obtained under the title of Highland University, and several years afterward the institution was transferred to the care of the Synod of Kansas. At present its Trustees represent the Synods of Kansas, Nebraska, Southern Iowa and Missouri, contiguous to which Synods the University is located. The aim of its founders, friends and patrons is to make it an institution worthy of the grand field and mission assigned to it in the providence of God.

Some progress has been made in the work of endowment—but merely a beginning—it is proposed to carry it forward until the institution is thoroughly endowed. The attention of the benevolent is solicited to this important matter :

\$500 will endow a tuition Scholarship.

\$2,500 will endow a full Scholarship.

\$25,000 will endow a Professorship.

LETTERS OF COMMENDATION.

The following papers, from eminent and well known ministers, endorsing Highland University and its work of endowment, are selected from many, and submitted to the Christian public:

Having been on the ground and learned from personal observation something of the struggles and wants, as well as of the great importance of our nascent colleges in the new Western States, I am deeply impressed with the conviction that our wealthy and liberal minded Christians who are desirous of making good investments, ought to come to their aid with large donations for their permanent endowment. * * While I am not in favor of multiplying petty, starveling institutions in our new States, I strongly hold to the great necessity of establishing, in central localities within Synodical boundaries, at least one University or College, like that at Highland, in Kansas, and of giving to it judicious, fostering care.

DANIEL W. POOR,
Cor. Sec'y of the Presbyterian Board of Education.

I consider the claims of Highland University on the Presbyterian Church as among the most important that can commend themselves to the hearts and helping hands of Christian men. May they find a cordial and copious response.

HOWARD CROSBY,
Chancellor of University of New York.
